

BALLOON SPECIFICATIONS / ESPECIFICACIONES

All R-12 Satin Pearl and Metallic Balloons are manufactured on super-sized forms, whereas the uninflated balloons look larger than other balloons of the same sizes, they are designed to inflate to the same sizes as Fashion, Pastel Matte, Crystal Pastel, and Neon colors.

The listed average inflation sizes, lift ability, flying time, and numbers of balloons per helium tank are conservative average.

Todos los globos R-12 Satin Perlados y Metálicos se fabrican especialmente con moldes de mayor dimensión, mientras que los globos desinflados se ven más grandes que otros globos del mismo tamaño, están diseñados para inflarse al mismo tamaño que los colores Fashion, Pastel Mate, Cristal Pastel y Neón.

Esta tabla contiene la lista de tamaño inflado promedio, capacidad de elevación, tiempo de flotación y cantidad de globos por tanque de helio.

AIRWALKER INFORMATION 2019

All AirWalkers perform best if filled entirely with helium (except for those with inflatable feet such as Mickey and Minnie, when the feet should be filled with air). However, some are very high volume, and as such can be perceived to be expensive on helium. Please see below for information on which parts of which AirWalkers may be filled with air, yet still perform adequately.
