SPRING
SUMMER
2024

Welcome to Spring Summer 2024!

With over 250 new SKUs across Valentine's, Easter, Hen Party, Baby Shower, Wedding and Party there's so much to be excited about this season.

From key first birthday milestone decorations to a fun kids bug collection and a new modern take on a rustic wedding theme, we have loads of fantastic new collections that everyone will love.

In Hen Party, we've built on the success of our Hen Weekend range and brought even more wearable and chic accessories that the whole bridal party will love, from water bottles to robes and caps. Then for our floral girl, we've got a new Bridal Bloom collection with pretty wearables and decorations.

We introduced our new sub-brand **The Little Rays** last season, our children's dress up collection. It's back with even more adorable outfit options for Spring Summer, from mermaids to bumble bees and dragons - let their imagination run wild!

As a brand, we're not only committed to bringing the most forward-thinking, innovative trends and products to market, but also doing this in a sustainable way. Take a look at how...

Our Eco Journey

We've been working hard to make our products more eco-friendly, and for us to be more transparent.

Throughout all of our product development, we're entirely focused on recycled materials, reusable products, and sustainability.

We will continue to develop products in the most sustainable way – we have loads more we want to achieve, and we are looking forward to the future!
